

# Your first 30 minutes on Lumio Tennis Coach

Seven steps take you from an empty portal to a real week of coaching. Your dashboard shows the same seven as a checklist, and each one opens the right page for you.

## SIGN IN

Go to [lumiosports.com/sports-login](https://lumiosports.com/sports-login), enter your email and type in the 6-digit code we send you. There's no password to remember.

## YOUR ACADEMY'S OWN PAGE

Players and parents can sign in at [lumiosports.com/login/your-academy](https://lumiosports.com/login/your-academy). It shows your name, logo and colours.

- 1 Connect your calendar and email.** Open [Settings → Connected accounts](#) and choose Google, Outlook/Microsoft 365 or Apple iCloud. Bookings then appear in the calendar on your phone, and emails to players come from your own address.
- 2 Set your home court.** Add your main venue and its courts in [Settings → Venues & courts](#). Confirmation emails, map links and free-slot suggestions all use it.
- 3 Add the players you coach.** Open [Player Roster → Add player](#), or upload a spreadsheet in [Settings → Import data](#). A handful is enough to start. Add ages and parent emails, because they decide who gets messages.
- 4 Put a session in the diary.** Go to [Booking Calendar](#) and click an empty slot. The player gets a confirmation and sees the session in their app.
- 5 Build a session plan.** Open the booking in [Session Planner](#). Lumio drafts the plan and a timed run-sheet from that player's history.
- 6 Write up the lesson.** Record the session on your phone, or press **Finish session** and tick what you covered. The summary lands in [Lesson Summaries](#) and goes to the player, or to their parent if they're under 16.
- 7 Message a player or parent.** Use [Messages → Send message](#). They get it in their app as well as their inbox, which moves conversations off WhatsApp.

### Prefer to hand it over?

Founding members can choose **Set it up for me** when they first sign in. We import your players and set up your portal within 2–3 working days.

### Every page explains itself

Tap the ① next to any page title for a short guide: what the page is for, how to use it, and what's worth knowing.

## Where everything lives

Hover over the sidebar to see the page names.

### Coaching

**Dashboard** gives you today at a glance. **Session Planner** is the plan you coach from. **Lesson Summaries** holds every write-up. **Player Development** is where you grade skills. **Racket Progression** is the colour reward ladder.

### Schedule

**Booking Calendar** shows your week, **Court Planner** your venues and **Training Camps** your camps and trips, run from start to finish.

### Players

**Player Roster** lists everyone you coach. **Messages** holds every conversation, including camp group chats.

### Performance and resources

**Video & Audio** turns recordings into write-ups. **Effort & Rewards** awards XP for hard work. **Equipment & Kit** tracks your stock and **Resource Centre** your drills and guides.

### Team, business and settings

**Coaches** holds your team and DBS records, and **Payments & Packs** your packs and balances. **Settings** covers your academy, branding, connected accounts and which modules are switched on.

## Three habits that make it work

#### EVERY SESSION

##### Finish it in Lumio

Record the lesson or press Finish session. The summary it writes is the thing parents value most, and it feeds your next plan.

#### EVERY PLAYER

##### Keep the record right

Age, parent email and consents drive who gets what. Anything under-16 goes to the parent, never the child.

#### EVERY MESSAGE

##### Send it from Lumio

In-app messages can't bounce, sit in one thread per family, and keep juniors out of adult group chats.

#### NEED A HAND?

Email [hello@lumiosports.com](mailto:hello@lumiosports.com) and a real person will reply. For more detail, see the **Getting started guide** and the **Portal guide**.
