1. Categories

Evidence is maintained against six licensing categories: facilities, staffing, academy, contact hours, welfare, medical. Each criterion has a threshold, current status, evidence-on-file reference, last-reviewed and next-review dates.

2. Maintenance

The vault is the working record; the Club Licensing module surfaces a live read of the same data. Evidence is curated by the Head of Operations with sign-off from the Welfare Lead and Club Doctor for their sections.
